Vinification:

AD 1212 is a special edition, dedicated to the first written records of winemaking at Decugnano. Grapes are carefully selected and harvested by hand between August 25th and September 30th according to variety, with a yield of 6,000kg per hectare. On arrival at the winery grapes are de-stemmed and placed in stainless steel tanks for 12-15 days at 24°C. Maceration lasts 7-8 days. 1/3 of the wine is aged in new French oak barrels for 12 months, the rest is kept in stainless steel. After careful blending, the wine is kept in bottle for further 6 months before market release.
